*Assistant Superintendent*

April Scott, Ed. D.  
*Assistant Superintendent*

Dear Warrior Family,

We are excited to begin our 2020-2021 school year. The first day back is Monday, August 10th. The district has developed a back to school plan that can be found on our district website. Individual school opening plans will be available this Friday, July 31st by way of School Status, social media, and the district website. These plans will answer your questions about the first day of school procedures for your child.

The safety of our students and staff is priority one. To that end, we have made preparations to provide the safest learning environment possible for in-person instruction. We have also offered distance learning for any student who may choose this option.

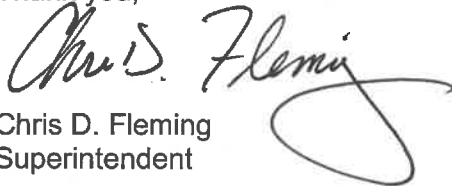

We have purchased masks as well as face shields for all students, faculty, and staff. We have placed hand sanitizer stations in our schools and will train students and staff on the safety protocols per the newest CDC, Mississippi State Department of Health, and MEMA guidelines.

Buses will do their best to follow the normal pick and drop-off times; however, there may be some changes, so we appreciate your understanding as we work through this daily. Students who ride the bus will be required to wear a mask. To help with social distancing, we encourage you to provide transportation if possible. Due to this request, we anticipate the car rider traffic to increase.

Both traditional and distance learning must have completed the residency form in order to receive their course schedules and attend school. The form is available at the district office at 104 McKie Street as well as on the district website. You may drop off the form in the blue box on the front porch of the district office.

Again we thank you for your continued support and patience. We look forward to having our Warrior family back together as we begin the 2020-2021 school year on Monday, August 10th.

Thank you,

Chris D. Fleming  
Superintendent
