Assistant Superintendent

October 12, 2021

For the week of October 4th - October 8th we have had one individual test positive at Senatobia Elementary School (SES), and two individuals test positive at Senatobia High School (SHS) . Contact tracing has been conducted and all persons in close contact (someone within 6 feet of an infected person for 15 minutes or more) with this person have been notified. These individuals will be quarantined for 10 days from last known contact. While quarantining individuals may not attend school or any school activities. Students in quarantine will continue their lessons through distance learning.
